

Ever climbed a giant oak or picnicked under a shady maple? Trees are terrific, and this guide will show you exactly why they're the coolest giants on Earth!

## TERRIFIC TREES

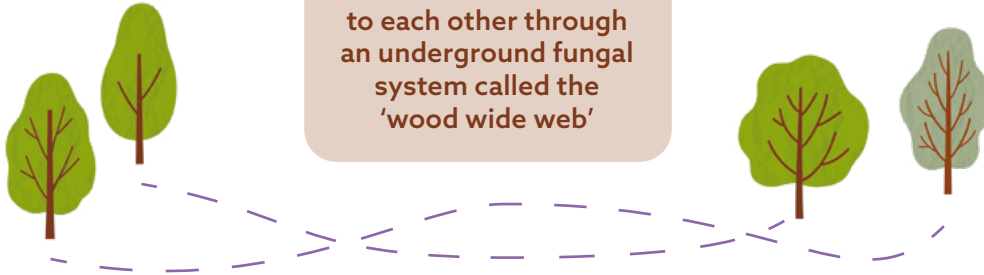

There are over 3 trillion trees on Earth

### DID YOU KNOW?

You can find out how old a tree is by counting the rings on its trunk

Trees can communicate to each other through an underground fungal system called the 'wood wide web'

Large trees can drink as much as a bathtub of water every day

Trees give us clean air to breathe by turning carbon dioxide into oxygen

## UNUSUAL TREES

Discover some of the weirdest and most wonderful trees on Earth

### Tallest Tree

The world's tallest tree, Hyperion, is taller than Big Ben

### DID YOU KNOW?

Trees have been around for between 350 and 420 million years

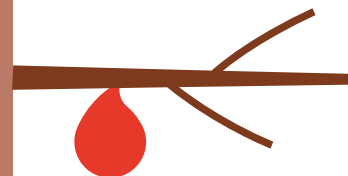

### Tiniest Tree

The smallest tree, the dwarf willow, isn't much bigger than your thumb

### Rainbow Tree

There's a tree with rainbow-coloured bark called the rainbow eucalyptus

### Dragon Tree

The Socotra dragon tree produces red sap, which is also known as dragon's blood
