

# FACTSHEET

Learn why minibeasts are so marvellous and how even the creepiest of creatures can be cool

## MARVELLOUS MINIBEASTS

Check out these fun facts about minibeasts and why they're so marvellous

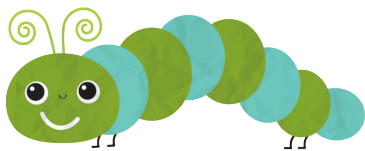

### Ant superheroes

Ants are incredibly strong and can lift objects up to 50 times their bodyweight

### Sleepy snails

Snails can sleep for up to three years inside their shell

### Caterpillar camouflage

Some species of caterpillar can camouflage themselves by mimicking nearby trees or leaves

### Lightning bugs

There's a species of beetle, known as glow-worms, that glow in the dark

## CREEPY CRAWLIES

Learn all about some cool creatures that make some people's skin crawl

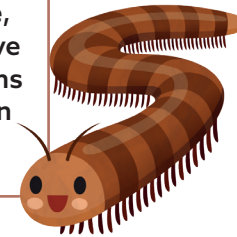

### Spiders

Although they have eight eyes, spiders have poor eyesight and rely on their hearing, taste and smell

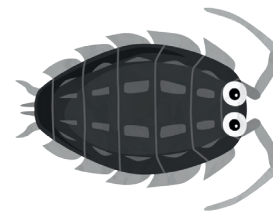

### Millipedes

Despite their name, millipedes don't have thousands or millions of legs but between 40 and 400

### Woodlice

Woodlice are crustaceans, meaning they're related to crabs and lobsters

### Wasps

Wasp venom has a special smell that makes other nearby wasps more aggressive

**DID YOU KNOW?**  
There are over 24,000 different types of insects in the UK
