ST 40851 Go Away Spray

Declaration:

Provides an unpleasant odour for dogs and cats. To be used to discourage animals to stay in and around an area and to prevent them from fouling your home and garden. Urine and faeces must be removed, and the area well cleaned.

Directions for use:

Shake before use. If you wish, or if needed, spray on a cloth and place nearby plants or delicate objects that you want to protect. Spray generously and until slightly wet. Use daily or as needed. Choose several spots in the area when using Diafarm Go Away spray. During warm weather and/or when area used to be heavily soiled, more frequent use is recommended for best results. Do not spray directly on animals. Keep out of reach of children.

Ingredients:

Aqua, Polysorbate 20, Methyl Nonyl Ketone, Phenoxyethanol, Potassium sorbate, Ethylhexylglycerin.
